Curtain Pole 204-360cm: L191 x W10 x H7cm

Extendable Metal Curtain Pole

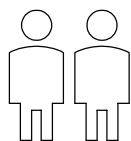

- 120-210 cm
- 204-360 cm

Max. loading capacity: 15 kg

Up to 30 min. approx
assembly time

Two-person assembly

This product is intended for domestic use only, not commercial purposes.

INSTALLATION GUIDE

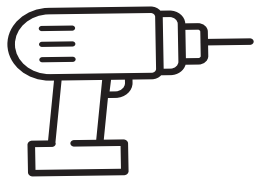

WARNING: Make sure the screws and mounting hardware are appropriate for the installation surface. If you have any questions, please consult a qualified professional.

Parts and Fittings:

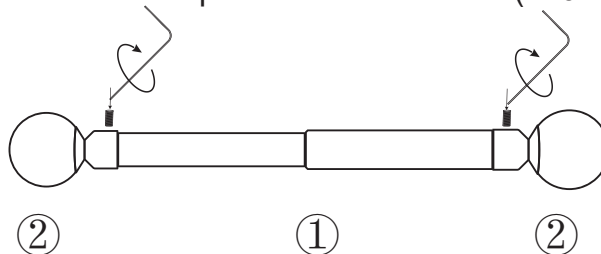

Please check you have all the parts and fittings listed below with your product.

①	②	③	A	B	C
					
Extendable Pole	Finial	Bracket	Hex key	M4x 30mm Screw	Wall Anchor
inner pole 1pcs + outer pole 1pcs	2pcs	3pcs	1pcs	9pcs+2pcs extra	9pcs+2pcs extra

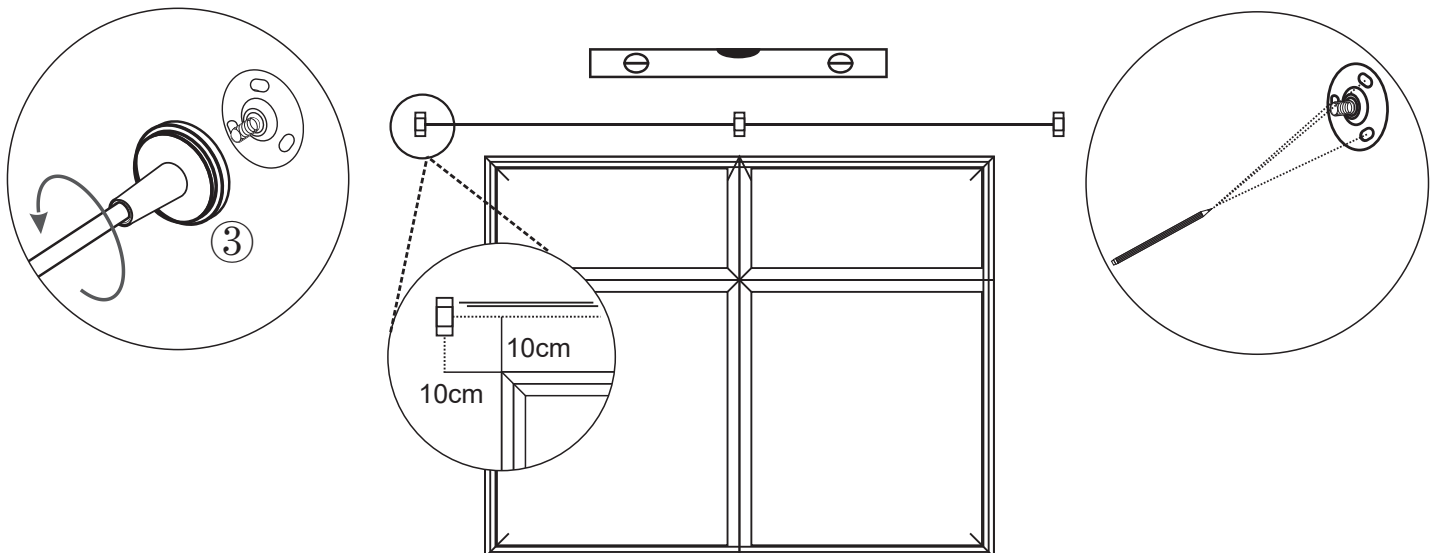

Please prepare the following tools before installation.

					
Pencil	Screwdriver	Tape Measure	Hammer	Level	Drill

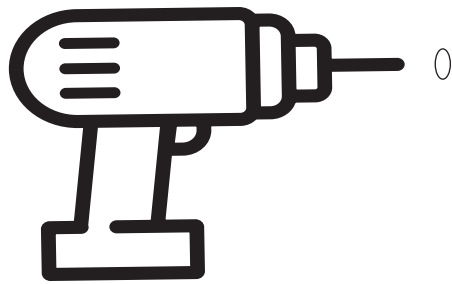

1. Fix the finial to the end of the pole. Adjust the curtain pole length according to the window width. Ensure the length does not exceed specified for the model (120-210 cm or 204-360 cm).

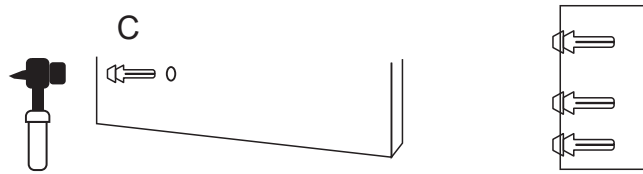

2. Unscrew the mounting bracket from the bottom of each support bracket. Position the mounting brackets 10 cm above and 10 cm from each side of the window frame and mark the drilling positions. Use a spirit level to ensure they are level.

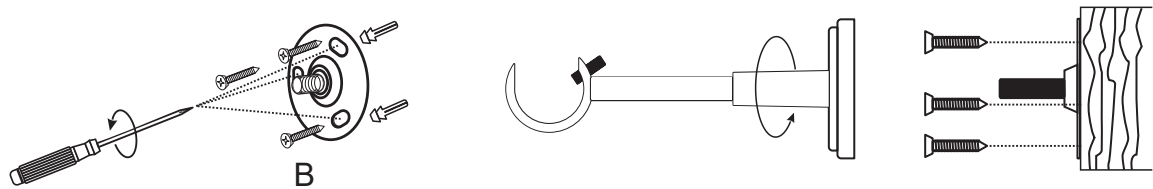

3. Drill holes at the center of each marked location.

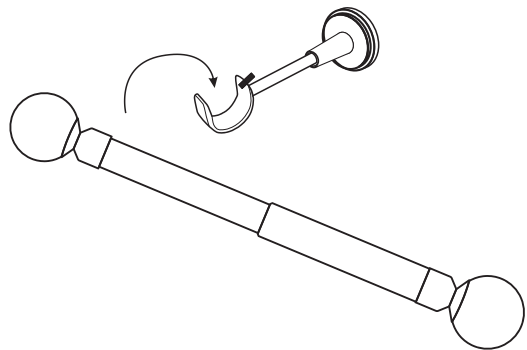

4. If installing into drywall, tap the wall anchors into the drilled holes using a hammer until they are flush with the wall. Skip this step if not applicable.

5. Fix the brackets securely by M4 screws at the marked positions.

6. Place the assembled curtain pole onto the installed brackets.

7. Fix the curtain pole securely by Hex key screws on the bracket holder.
