UK

How to Use

1.Touch Control

Turn on: Long press for 2S.

Switch color: After turn it on, please continuously click to change in warm white 3000K, neutral white 4500K, cold white 6000K respectively.

Dimmable brightness: After turn it on, please long press.

2. Remote Control

Button "ON", "OFF": Turn on/off.

Button "+", "-": Brightness adjustment.

Button "W", "WY", "Y": Choose color in cold white 6000K, neutral white 4500K, warm white 3000K.

Button "10%", "40%", "80%", "100%": Preset brightness modes.

3.Timing Function

Button "10", "30", "60", "120": Timing in 10,30,60,120Min.

Cautions

1. Do not use in electrified high voltage lamp base.

2. Please charge it in DC 5V before use.

3. It takes 2-3h to fully charge(Red indicator for charging, blue for full), which can be used for more than 20h according to the different brightness.
